

LINDA WATERFALL

A LITTLE BIT AT A TIME

Low Rider

(Linda Waterfall, Paula Schwarz's 8th Grade Class)

Guitars, vocal, vocal effect: Linda Waterfall

Bass, tambourine: Cary Black

Percussion: Lary Barilleau

They sit down low and drive real slow

Low rider to the ground

And you only see their eyes as they peek over
the sides

Low rider to the ground

My low rider, my slow rider

My get up and go rider

They are low to the ground and they bounce
up and down

Low rider to the ground

They got big huge speakers and tires like old
sneakers

Low rider to the ground

My low rider, my slow rider

My get up and go rider

They are easy to ride and they are big inside

Low rider to the ground

You can carry all your friends

Drive until it never ends

Low rider to the ground

My low rider, my slow rider

My get up and go rider

We were cruisin' in my low rider one night

Nothin' could stop me from feelin' alright

Up went the radio, down came the top

Baby you shake me up just like a soda pop

Well I'm ridin' my low rider con mi amor por un
ladito

Low rider to the ground

We're just cruisin' along in mi caro muy vahito

Low rider to the ground

My low rider, my slow rider

My get up and go rider

("Low Rider" was written by Linda Waterfall and Paula Schwarz's 8th grade English class, Union Gap Middle School 1986-87, during a residency sponsored by Union Gap School and the Washington State Arts Commission's Artist in Residence Program. A portion of any artist's profits from this song will be directed to the Union Gap Arts Education Programs.)

Hilary Peddle

I Like to Look at You

(Linda Waterfall)

Guitar, vocals: Linda Waterfall

Bass, tambourine: Cary Black

Percussion: Lary Barilleau

I can't explain it to you, 'cause I don't know why
But it doesn't do it for me, just some picture of
some guy

But when you lean back and your shirt rides up
I'm watchin' from the corner of my eye
Because I know you, because I know you that's
why

That's why I like to look at you

You know you interest me with the things you
say

I get a fantasy when you make me laugh that way
Some people try to pull my string with the same
old thing

But with you it's something different every day

It's 'cause I know you, it's 'cause I know you
that's why

That's why I like to look at you

Got me started with the way you work, you're
so into everything that you do

Got me wonderin' what you have in mind

You're starin' at my mouth while I'm talkin' to
you, I'm talkin' to you

So do you think of me, every once in awhile

You do these little things for me, then you look
at me and smile

Another day goes by, and it's no wonderin' why
My imagination's running wild, it's 'cause I know
you, 'cause I know you

That's why — that's why I like to look at you

That's why I like to look at you

Love Your Mother Earth

(Linda Waterfall)

Keyboard, lead vocal: Linda Waterfall

Bass: Cary Black

Drums: Steve Hill

Harmony vocals: Kim Scanlon, Laurie Brown, Greg
Scott, Linda Waterfall

You got the voodoo in you

But the order of your world it will undo

And so you hide it, you must deny it

It's what you're driven to

We bless the earth with this force

Of all living things the fire and the source

You can't control it—if you could control it

It would not be what it is

What it is

Love your mother earth

Love and be one.

You took away our names

Cut our bodies and your god made us ashamed

Our crops and children, you took possession

You made us your slaves

You dominated this earth with your weapons

and your whorehouse and your church

But you don't own us, you can't control us

And you don't know what it is

What it is

Love your mother earth

Love and be one.

My love for you, never doubt

You're my brother and I stand beside you now

With forgiveness, but as your witness

Your time is running out

You gotta lose your control, let it go and be a
part of the whole

This is the healing, accept this feeling

This is how you know what it is

What it is

Love your mother earth

Got to let you know what it is

To love

Something That We Already Know

(Linda Waterfall)

Guitar, mandolin, synthesizer, vocal: Linda Waterfall

You come by to talk to me

I don't know you, so it's funny

We spend an hour over coffee

And you tell me 'bout your broken heart

We take a walk around the lake

And we remember all our past mistakes

This time, we could do it right

But it scares me just to think we might

(Chorus:)

And now it seems to me, like there's something
that we already know

Something that we already know

You call me up, I'm far away

You got a letter from me today
There's something there, it's in your voice
I feel like we've made some choice

(chorus)

You come by another day
And now we're talking in a different way
I'm still afraid — you understand
But I open when you touch my hand

(chorus)

A Little Bit at a Time (Linda Waterfall)

Piano, vocals: Linda Waterfall
Percussion: Lary Barilleau

Rock face, with your back to me
Your true shape is a mystery
I change my point of view
Your silhouette is new

Rock face, we are lost today
Landmark, help me find the way
Learning from all points of view
But I always come back to you

A little bit at a time

A little bit at a time

(Workin' the way that I hope to)

A little bit at a time

(My love, my love)

A little bit at a time

(Slowly things are changing)

A little bit at a time

(My love, my love)

We climbed on the rock today
Higher every time, we say
Nothing between us and the sky
Above the clouds passing by

A little bit at a time

Mirage (Linda Waterfall)

Guitar, vocals: Linda Waterfall

Bass: Cary Black

You've always been my mirage, oasis in the
desert air

Pictures of you I've made, I carry with me
everywhere,

You're there — on the horizon, but when I reach,
You vanish in the air

My biggest job growing up was to figure out when
you were real

Visions of you keep me from searching for the
real water I need

Lost in the desert, trying to find a map for what
I feel

I can keep on working

I can dig a deeper well

I can find the source of water inside myself

The water is clear to the bottom of what I see

The water is a mirror staring back at me

The water is a mirror staring back at me

Now I find that you love me as much as I love you
When I reach for you it makes you feel like you're
really there

And you're scared

And now I forgive you, now I know

You can't help yourself

I can keep on working

I can dig a deeper well

I can find the source of water inside myself

Oasis in the desert air

Coconut Milk (Linda Waterfall)

Guitar, vocals: Linda Waterfall

Coconut milk will make you sing

Coconut milk will do your thing

Coconut milk will spread your wings

It's sweet and white and creamy

Make your ears ring, make your hips swing

It's good for you, it's good for you

I need a little taste of that coconut milk

Open you up like a candy jar

Make you feel like who you are

Make you feel like shooting stars and then

Dropping off and dreaming

Give you a warm heart, give you a jump start

It's good for you, it's good for you

I need a little taste of that coconut milk

Coconut milk's your sweet introduction to life
on earth

Carry you through your troubles, remind you
what life is worth

Hard to resist, 'cause it's so much fun

Hard to find, when you're lookin' for some

Coconut milk just comes when it comes

So just be grateful, makes me glad to be

Don't say it's bad for me,

It's good for me, it's good for me

I need a little taste of that coconut milk

Coconut milk will make you sing

I'll Take Care of You Tonight (Linda Waterfall, Tony Goldenberg)

Guitar, vocal: Linda Waterfall

Bass: Cary Black

Drums: Steve Hill

Fools who run the show on earth
Fools may not know what you're worth

My love, but I do

That's why I'm here with you

We can make the world up new

You and I know what to do

(Chorus:)

I'll take care of you tonight

I'll take care of you tonight

I'll take care of you tonight

I would change my world for you

Undo things I used to do

I been lost for so long

Tryin' to be so strong

Changin' is so hard to do

Even with my trust in you

(Chorus)

Even in the darkest night

Things are seldom black and white

Eyes adjust to shadow play

Imagining what they may

Nothing you can promise me

Everything is wait and see

For those of us who wait

Hopin' it's not too late

Nothing more to say right now

Words won't do it anyhow

(Chorus)

Twice As Shy
(Linda Waterfall)

Guitar: Linda Waterfall

Make It Your Own Idea
(Linda Waterfall)

Guitar, lead vocal: Linda Waterfall

Bass: Cary Black

Percussion: Lary Barilleau

Harmony vocals: Kim Scanlon, Laurie Brown

Imagine a country not far away
Where people go hungry every day
They decide that they want to make a change
Take control of the way the money is made
No one should live a life of greed
When others around are suffering in need
They promise each person a healthy life
And that's worth any sacrifice

It's their own idea, it's their own idea

(Chorus:)

If it's your own idea, giving it up is what you
choose

And if it's your own idea, it won't be so hard for you

No one wants to be told how they should live
Or how much money they have to give
Or what kind of job they have to work
Or what they can say in the printed word
But if we make freedom our way of life
Gotta live in a way that earns us the right
We don't need a law to make us obey
If we learn how to share in a natural way

Make it your own idea,
Make it your own idea

(Chorus)

So we got two governments side by side
Sayin' you are wrong, and we are right
One says that freedom of speech is best
And one says no one should starve to death
If you learn from the other one's point of view
Someday they'll be willing to learn from you
And when you give up a part of yourself
You become a part of everything else

Make it your own idea,
Make it your own idea

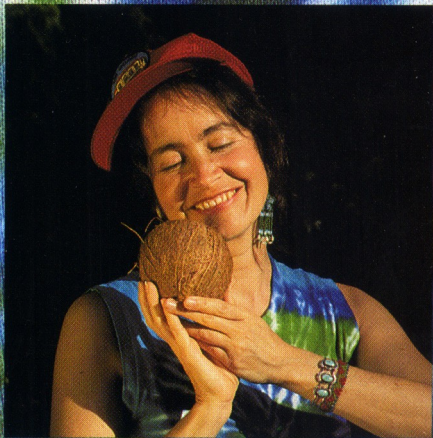

(Chorus)
