Bananaland

It looks like fun but looks
can be deceiving
If you believe, it's something to believe in
If it's so easy maybe you should try it
If you can't feel it maybe you can buy it

(Chorus:)
How long now have you been

hanging by your hand
Long hard winter in Bananaland
Do the best you can
I know that love will light my way
It will shine on all my tears

You wanna talk to them, you find a phone You do it all day long, no time alone If you survive, you may already know this And if you're high you might not even notice

(Chorus)

You're gonna find a way to get around it. Gonna tell the world you have found it. But if they follow you, what if you lose it. If you find it, don't forget to use it.

(Chorus)
I know that love will light our way,
you and me
It will shine on all our tears

Out to Lunch

There's a smile on your face
but the word is still "no soap"
Like a dried out sponge
in the last little river of hope
I know you'll be glad to clean up my act
When I'm all washed up
But I really don't wanna go out to lunch

(Chorus:)
I'd rather do it
I'd rather do it
I'd rather do it, yeah

It's a long way down when you
jump and hold your nose
Would you rather wait here while
you see which way it goes
I know you'll be down to pass it around
When I hit the ground
Tell it to the ones you're taking out to lunch

(Chorus)

You're rehearsing it again and it bores you even more The only funny part is where you really don't know the score I know you like to sit on the fence It's at your expense Charge it to the one who takes you out to lunch (and don't forget the tip)

(Chorus)

You and me, we both know who's out to lunch

That's All I Need

I've been waiting
And it's been awhile since you and I
Could take our time in style,
now here we are
Oo baby, that's all I need

I gotta say
This is my favorite game,
and when we play
It never ends the same,
but when you whisper
Squeeze me, that's all I need

(Chorus:)
Yes indeed, you give your love to me
You're not afraid to let me loose that way
Open up my heart 'cause you got the key
'Cause you find that feeling in me

No heartless words
Make our feelings die, no empty games
Will make us cheat and lie,
that's how I know
You'll never hurt me, that's all I need

(Chorus)

Comin' Across the Blues

Low light smile like sleepin'
And I can feel you fly away
All my dreams wheelin' now, like
Shinin' out over the grey

Oo baby It's the way that we mean it to Can you hear it stealin' away I'm comin' across the blues

Violet sky this morning Play a blue note to end this line Songbirds wake me singin' I'm gonna leave this body and fly

Oo baby It's the way that we mean it to Sometimes you mean it too easy Comin' across the blues

Good times fade away smilin'
Like the moon on a sunny day
Sometimes you'll be restin'
You'll be bringin' them home to stay

Stay, good times
The way that you mean them to
Roll in the trees, lost in the breeze
God, they're comin' across to you

All your dreams come true

Some day I'll fly away from here

Stand Up to You

I bought the blues
Just like lots of other folks I know
Think I bought them from you
What is it about the high class
pleases you so
You wrap the rest of us around a screw

(Chorus:)
Maybe you think I'm losing
Whatever that means to you
Maybe you'll make it tough for me
Somebody's gonna stand up to you

Bad feelings
Chase me, I'm fighting with them
all day long
I hate to pass it along
If you hold it all in,
it'll drive you to drink
You gotta let it out and carry on

(Chorus)

All right, you win this time
Too bad, the money don't change your face
Or put your head in some better place
When you're living it up
and all your payments get behind
Don't be calling me up
trying to waste my time

(Chorus)

Wyoming Boys

Out in the alley, behind the bar Something's getting out of hand, going too far They didn't come together, They didn't but they will Here comes her old man and he's ready to kill

Those Wyoming boys
Those Wyoming boys
Those Wyoming boys are crazy
You better watch your old lady

Wyoming boys are crazy, you ask them why
It's the long cold winter
and the wide open sky
The wind just blows the sense
right out of their heads
Makes them do exactly
what they feel instead

Those Wyoming boys
Those Wyoming boys
Those Wyoming boys are wild
Mama's favorite troublemakin' child

Out in the alley, behind the bar Drivin' some pretty lady's shiny new car Tellin' everybody, "Hey I'm a millionaire" But when he buys a beer there ain't a dime to spare

Those Wyoming boys
Those Wyoming boys
Those Wyoming boys are shiftless
They just think every day is Christmas

When he says he wants you can't you leave it alone
Suddenly your body got a mind of its own
Once you get to thinkin'
you may wonder if you dare
One thing you can count on is
he'll take you there

Yeah, he'll take you there
Hallelujah
Those W'yoming boys are sweet
I say you'll know it when you feel it
W'hen those Wyoming boys are goin' for it
You know there's nothing more important
Those W'yoming boys are sweet
I say you'll know it when you feel it

Poison Arrow, a song about Crazy Horse

You act like a friend
You keep drawing me in
Poison arrow, you cut me down again
I made up my mind
This will be the last time
I see you clearly, there's an arrow
in you hand

(Chorus:)
Will you fight the poison arrow
Strike, your time has come
No heart in those who use it
When it flies, you better run

You go to my friends
I have to see you with them
Poison arrow,
they are falling under your spell
My words don't help
One must see for oneself
Still I will not smile or pretend I'm taken in

(Chorus)

Where have I gone
You know I waited too long
You're closing in, no room to step aside
Poison arrow man
I will never shake your hand
Back to the wall,
may my anger help me survive

Will you fight the poison arrow Strike, your time has come No heart in those who use it Will you fight or will you run

Eye of the Cyclone

I feel walls and fences
Blowing away
Scattered senses
Flying into space
And in the darkness turning around me
I try to find a still place
Inside the blue and flashing cloud
Behind a veil of rain

(Chorus:)

Eye of the cyclone,
nothing is here to stay

This is the wind that blows my dreams away

Eye of the cyclone, nothing is here to stay

How do I find the courage to live this way

Eyes fascinated
Afraid but I want to see
Sky illuminated
Grounding itself in me
No other wind will carry me here
No other rain will fall
No other light will shine in my darkness
No other voice will call

(Chorus)

Is there any reason
To leave behind anything
Map or messages
Is anybody listening
And now you know
there's no one behind you
No one will find your path
You wander out in the mind
of the wilderness
Someday you won't come back

(Chorus)

My Heart is Gonna Break

I was standing by the door,
I was waiting to move outside
When I saw your face, I changed my mind
I don't want you to see through
to what I feel inside
(You better watch your eyes)
Oo baby, my heart is gonna break

I only got a minute or two to talk to you
Before you see a friend and walk away
I finally got a chance to feel good,
but I'm afraid of you
(And now there's nothing to say)
Oo baby, my heart is gonna break

Lowcut neckline and a high hemmed skirt Is that the only way I can make it work The way I look,
I get the come-on and the moves
From everybody but you
Why am I in love with you

You know I'm gonna follow you
when you leave tonight
I'll be riding on the road right over you
And if it's working right for me,
you won't sleep tonight
(You're gonna love me too)
Oo baby, my heart is gonna break

I Saw Him Go

Now he's gone
Down the golden dusty road
Now he's gone
Past the sunset into darkness
"Youth is more beautiful than age"
I saw him go, and I did not follow

Now he's writing
In the passages of earth
The graceful sway
Of her fertile, filthy hand
"Sorrow is more beautiful than joy"
I saw him go, and I did not follow

The clouds are moaning
The foam curls on the sea
The source of nature's hand
Will always be
What is more beautiful than life?
I saw him go, and I did not follow

Death is oneness Death is oneness, life is oneness Death is oneness Death is oneness, life is oneness

Long Hard Road

Hey don't you worry if your light is gone
(Are you really in love)
What ya gonna do to turn it back on
(Are you really in love)
Life is like a race track
Keep your foot to the floor
Gotta make the best of the time you got
Whatever you gotta do,
you're gonna do it one the

Long hard road Long hard road Long hard road

Hungry hearts searching for
something you need
(Are you really in love)
Dont bother looking on Easy Street
(Are you really in love)
Keep on turning the corner
You'll find something sweet
Gotta make the best of the time you got
Whatever you gotta do,
you're gonna do it on the

Long hard road Long hard road Long hard road, yeah

'cause you're out in the cold
(Are you really in love)
Wondering how long
your strength is gonna hold
(Are you really in love)
Time to have a party
Invite everybody you love
Gotta make the best of the time you got
Whatever you gotta do,
you're gonna do it on the

Long hard road Long hard road Long hard road Yeah
